

# 2023 AUTUMN TRENDS

Taking inspiration from your wedding season to enhance your signature drink choice is a fun way to add some spice to your wedding. Fall-inspired cocktails will bring warmth and flavor to guests. Try a Pumpkin Spice cocktail, or a spiked Apple Cider!

Textures, personalized toppers, and fall shades should be top of the list when it comes to wedding cakes for 2023. Couples are embracing autumnal touches by adding floral and greenery to top their sweet treat! Our preferred vendors, O'Heavenly Homestyle Desserts and Sweet Grace have plenty of experience creating beautiful cakes inspired by their couples.

The farm-to-table trend is not going anywhere soon! Using seasonal, fresh ingredients, such as squash and apples, is a great way to elevate your menu for the season.

At The Thayer Hotel, you can choose tasty menu choices that coincide with your Autumn wedding; including, roasted butternut squash risotto, apple cider donuts with hot apple cider, and locally harvested apples from the Hudson Valley. Check our wedding package to learn more about the cuisine we offer: [https://www.thayerhotel.com/wedding\\_packages](https://www.thayerhotel.com/wedding_packages)

An outdoor ceremony is still one of the top choices for Fall wedding venues. Zola says that outdoor venues give the ceremony "cozy vibes with the brisk breezes and beautiful scenery of changing leaves." Plan your wedding at The Thayer Hotel for stunning views of the Hudson River with the Hudson Valley fall foliage as your backdrop!

Make your wedding memorable by giving it a modern twist! A big wedding trend for 2023 is entertainment for your guests using interactive experiences. From mini lounges to giant game rentals, you can inquire with one of our preferred wedding vendors, Upstate Jamboree. They offer elegant game rentals that will bring your guests together! Learn more about them at <https://www.upstatejamboree.com/>

Another one of the biggest trends for 2023 is interactive food stations for guests to enjoy together. From cotton candy, to popcorn, a tasty treat is always appreciated by your guests! Upgrade cocktail hour or include a farewell station, and your wedding will be the talk of the season! Durant's Party Rentals has anything and everything you might need to spice up your special day.

Earthy tones such as browns, greens, reds, yellows, and oranges are still to stay as some of the most popular wedding colors for 2023. Embrace the season by tying a satin ribbon to your bouquets for added texture. Greenery, such as eucalyptus can be used as aisle markers or centerpieces. Romanticize your wedding arch with drapery and greenery. Talk to your florist to discuss your vision. Lilly's of the Valley and TK Floral Designs are experts when it comes to floral designs!
